

ENVIRONMENTAL POLICY

Champion Engineers services all disciplines of engineering design, project management and drafting.

The purpose of this policy is to demonstrate our commitment to meeting and exceeding the environmental management and recycling standards dictated by best practice and expected by our clients in the delivery of our services that we provide.

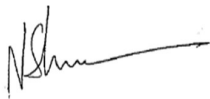

We believe that sound environmental performance contributes to our competitive strength and benefits our clients, our employees and the wider community.

We have developed an Environmental Management System to ensure that our activities and services comply with all applicable environmental standards and contribute to the wellbeing of the communities in which we operate.

Our environmental objectives are: -

- To comply with all applicable legal and statutory obligations and the requirements of our clients when we are engaged on their sites.
- To encourage a sense of environmental responsibility among all employees through training, education and communication.
- Develop and maintain a system of operating, monitoring and reporting all environmentally relevant activities to ensure all statutory requirements are met using best practice environmental management.
- Provide necessary resources within the budget capabilities of Champion Engineers to meet our environmental responsibilities.
- Ensure that all employees, contractors and suppliers are aware of this policy.
- Continue improvements in environmental management by reviewing, reporting and upgrading the Environmental Management System and procedures.
- Strive to be a community leader in environmental management.

This Policy statement shall be available at Champion Engineers workplace. We will review this policy periodically, so it remains relevant to the needs of Champion Engineers. This policy is to be communicated to all Champion Engineers staff, contractors/sub-contractors, and visitors on all project sites.
